Additional Commentary

Performance Update

Private credit loan¹ quality for the Fund remains strong based on several key metrics including a weighted-average mark² of 98.5, PIK income of less than 1.5%, and zero non-accruals.

Notably, while broader non-traded BDCs have faced elevated redemption pressures, the Fund has remained resilient, recording its twelfth consecutive quarter of net growth with tender offer requests in the second quarter holding steady at approximately 3%.

For the second quarter, the Fund generated net investment income of \$0.57 per share, which fully covered the distribution (\$0.57 per share). In addition, the Fund realized losses of (\$0.05) per share and generated unrealized losses of (\$0.18)³ per share. The Fund employs an independent 3rd party valuation process⁴ to incorporate changes in asset performance and market conditions in the Fund's NAV on a monthly basis.

The Fund's year-to-date total net return was 3.11% (Class I)⁵ outperforming leveraged loans by 180 bps⁶ and high yield bonds by 122 bps⁷, and supported by the Fund's modest software exposure, disciplined underwriting, and monthly cash dividend.

Status of Offering

The Fund is currently publicly offering on a continuous basis up to \$4.0 billion in Shares (the "Offering"). The following table lists the Shares and total consideration for the Offering and the Private Offering as of the date of this filing (through the July 1, 2026 subscription date). The Fund intends to continue selling Shares in the Offering and the Private Offering on a monthly basis.

	Common Shares Issued	Total Consideration ⁽¹⁾

Class I Common Shares	54,500,591	\$ 1,389.1 million
Class S Common Shares	130,452	\$ 3.4 million
Class D Common Shares	507	\$ — million
Private Offering:		
Class I Common Shares	288,301	\$ 7.3 million
Class S Common Shares	—	\$ — million
Class D Common Shares	—	\$ — million
Total Offering and Private Offering*	54,919,851	\$ 1,399.8 million

(1) Total consideration for Class D Common Shares as of July 1, 2026 was approximately \$13.0 thousand.

End Notes

- Portfolio metric pertain to directly originated loans only and exclude mutual fund or other collective holdings.
- Represents the weighted average mark based on funded capital.
- Includes a non-cash valuation change of (\$0.04) per share on an interest rate swap associated with the Fund's unsecured fixed-rate debt. The swap is a risk management tool or hedge that better aligns the Fund's liabilities with the Fund's predominantly floating-rate assets.
- A third-party valuation agent performs monthly valuation on all direct loan investments based upon unaudited reports from the underlying investments that may be subject to later adjustments, may not correspond to realized value and may not accurately reflect the price at which assets could be liquidated, and the differences could be material.
- Total Net Return is calculated as the change in NAV per share during the period, plus distributions per share (assuming dividends and distributions are reinvested) divided by the beginning NAV per share. The return shown is derived from unaudited financial information and are net of all Fund expenses, including general and administrative expenses, transaction related expenses, management fees, incentive fees, and share class specific fees, but exclude the impact of early repurchase deductions on the repurchase of shares that have been outstanding for less than one year. Past performance does not predict future returns. The returns have been prepared using unaudited data and valuations of the underlying investments in the Fund's portfolio, which are estimates of fair value and form the basis for the Fund's NAV.

All portfolio data shown as of 6/30/2026.¹ Current performance may be higher or lower than that quoted. Visit fidcredit.com for most recent month-end performance. Performance data shown represents past performance and is no guarantee of future results. Investment return and principal value will fluctuate, so you may have a gain or loss when shares are sold. • Total Net Return is calculated as the change in NAV per share during the period, plus distributions per share (assuming dividends and distributions are reinvested) divided by the beginning NAV per share. Returns greater than one year are annualized. Returns exclude the impact of early repurchase deductions on the repurchase of shares that have been outstanding for less than one year. The returns have been prepared using unaudited data and valuations of the underlying investments in the Fund which are estimates of fair value and form the basis for the Fund's NAV. The Adviser reimbursed or waived a portion of the Fund's expenses. Absent such reimbursement/waiver, returns would have been lower. ²Annualized distribution rate is calculated by annualizing the current declared distribution and dividing by the last reported monthly net asset value. We cannot guarantee that we will make distributions. Distributions have been and may in the future be funded through sources other than cash flow from operations, including the sale of assets, borrowings, return of capital, or offering proceeds, and we have no limits on the amounts we may pay from such sources. Please see the Important Information section for more details. ³Fund Inception 3/13/2023. ⁴Fund leverage is calculated as debt outstanding divided by total net assets. ⁵Loan-to-value and EBITDA metrics are based on closing metrics for directly originated loans; loan-to-value reflects simple average through Fidelity tranche and EBITDA reflects median. ⁶Portfolio metrics pertain to debt investments only and exclude mutual or other collective fund holdings.

Past performance is no guarantee of future results. An investment may be risky and may not be suitable for an investor's goals, objectives and risk tolerance. Investors should be aware that an investment's value may be volatile and any investment involves the risk that you may lose money.

Performance

Performance shown is net of Fidelity Private Credit Fund (the Fund) expenses, including general and administrative expenses, transaction related expenses, management fees, incentive fees, and share class specific fees, but exclude the impact of early repurchase deductions on the repurchase of shares that have been outstanding for less than one year. The Adviser waived a portion of the Fund's expenses. Absent such waiver, returns would have been lower. Class I does not have upfront placement fees. Please see the Fund's Prospectus for additional fee and expense details. The returns have been prepared using unaudited data and valuations of the underlying investments in the Fund which are estimates of fair value and form the basis for the Fund's NAV. Valuations based on unaudited reports from the underlying investments may be subject to later adjustments, may not correspond to realized value and may not accurately reflect the price at which assets could be liquidated.

Distributions

We cannot guarantee that we will make distributions, and if we do, we may fund such distributions from sources other than cash flow from operations, including the sale of assets, borrowings, return of capital, or offering proceeds, and we have no limits on the amounts we may pay from such sources. See the Fund's prospectus. Distributions may also be funded in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by the Adviser or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates. The repayment of any amounts owed to our affiliates will reduce future distributions to which you would otherwise be entitled. The Fund will post notices regarding distributions subject to Section 19(a) of the investment Company Act of 1940, if applicable.

Risk Factors

Investors should review the offering documents, including the description of risk factors contained in the Fund's [Prospectus](#) (the "Prospectus"), prior to making a decision to invest in the securities described herein. The Prospectus will include more complete descriptions of the risks described below as well as additional risks relating to, among other things, conflicts of interest and regulatory and tax matters. Any decision to invest in the securities described herein should be made after reviewing such Prospectus, conducting such investigations as the investor deems necessary and consulting the investor's own legal, accounting and tax advisors in order to make an independent determination of the suitability and consequences of an investment in the Fund.

- **There is no assurance that we will achieve our investment objective.**
- **An investment in our Common Shares may not be appropriate for all investors and is not designed to be a complete investment program.**
- **This is a "blind pool" offering and thus you will not have the opportunity to evaluate our investments before we make them.**
- **You should not expect to be able to sell your shares regardless of how we perform.**
- **You should consider that you may not have access to the money you invest for an extended period of time.**
- **We do not intend to list our shares on any securities exchange, and we do not expect a secondary market in our shares to develop.**
- **Because you may be unable to sell your shares, you will be unable to reduce your exposure in any market downturn.**
- **We intend to implement a share repurchase program, but only a limited number of shares will be eligible for repurchase and repurchases will be subject to available liquidity and other significant restrictions.**
- **An investment in our Common Shares is not suitable for you if you need access to the money you invest.**
- **We cannot guarantee that we will make distributions, and if we do we may fund such distributions from sources other than cash flow from operations, including, without limitation, the sale of assets, borrowings, or return of capital, and we have no limits on the amounts we may pay from such sources.**
- **Distributions may also be funded in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by the Adviser or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates. The repayment of any amounts owed to the Adviser or its affiliates will reduce future distributions to which you would otherwise be entitled.**
- **We use leverage, which will magnify the potential for loss on amounts invested in us.**
- **We qualify as an "emerging growth company" as defined in the Jumpstart Our Business Startups Act and we cannot be certain if the reduced disclosure requirements applicable to emerging growth companies will make our Common Shares less attractive to investors.**
- **We intend to invest primarily in securities that are rated below investment grade by rating agencies or that would be rated below investment grade if they were rated. Below investment grade securities, which are often referred to as "junk," have predominantly speculative characteristics with respect to the issuer's capacity to pay interest and repay principal. They may also be illiquid and difficult to value.**
